

# Reserve Study Update Pine Ridge Plantation CDD Middleburg, Florida

Prepared for FY 2024  
Report Date: May 18, 2024

May 18, 2024

Ms. Marilee Giles, District Manager  
GMS  
475 West Town Place, Suite 114  
St. Augustine, Florida 32092

Re: Pine Ridge Plantation CDD

Dear Ms. Giles:

Community Advisors is pleased to provide this Revised Reserve Study report for the above referenced Association. We have completed the adjustments you requested and have updated your funding plan. We recommend updating your study every 2 years to keep your information current with changing replacement cost, interest and inflation rates.

It has been a pleasure serving you and please let me know if you have any questions or concerns.

Respectively submitted,

Charles R. Sheppard *RS PRA CCI*  
Professional Reserve Analyst  
10459 Hunters Creek Court  
Jacksonville, Fl. 32256

## SPECIAL NOTICE

THIS RESERVE ANALYSIS INCLUDED A VISUAL OBSERVATION OF MAJOR COMPONENTS FOR YOUR PROPERTY. NO DESTRUCTION TESTING OR OTHER TESTING WAS CONDUCTED TO DETERMINE COMPONENT CONDITION. OUR ANALYSIS INCLUDES COMPONENTS WITH REPLACEMENT COST AND USEFUL LIFE PROJECTIONS THAT ARE TYPICAL FOR THIS TYPE OF FACILITY.

THIS ANALYSIS IS NOT A SAFETY INSPECTION OR STRUCTURAL INSPECTION AND WE RECOMMEND THE ASSOCIATION CONDUCT THOSE INSPECTIONS ON A REGULAR BASIS WITH QUALIFIED CONSULTANTS.

# TABLE OF CONTENTS

# Executive Summary

## Account Information

Account Name	<b>Pine Ridge Plantation CDD</b>	Account Number	<b>2022</b>
City	<b>Middleburg</b>	Last Site Visit	<b>March, 4 2024</b>
State	<b>Florida</b>	Report Date	<b>May, 18 2024</b>
In Service Date	<b>June, 15 2008</b>	Report Version	<b>4</b>
Total Units	<b>737</b>	Fiscal Year Start	<b>October, 1 2024</b>
Study Level	<b>Level II Update</b>	Fiscal year End	<b>September, 30 2025</b>

---

## Reserve Fund Information

Current Component Replacement Cost	<b>\$1,667,265</b>
Number of Components	<b>93</b>
Reserve Fund Beginning Balance	<b>\$717,350</b>
Billing Term	<b>Annually</b>

---

## Component Funding (Straight Line)

Recommended First Year Reserve Fund Contribution	<b>\$70,457</b>
Interest Rate on Reserve Deposits	<b>0%</b>
Inflation Rate on Replacement Cost	<b>0%</b>

---

## Pooled Cash (Current Funding Plan)

Current Year Reserve Fund Contribution	<b>\$82,202</b>
Interest Rate on Reserve Deposits	<b>3.0%</b>
Inflation Rate on Replacement Cost	<b>3.5%</b>
Annual Contribution Increases	<b>3.0%</b>

---

## Pooled Cash (Recommended Funding Plan)

Recommended First Year Reserve Fund Contribution	<b>\$83,529</b>
Interest Rate on Reserve Deposits	<b>3.0%</b>
Inflation Rate on Replacement Cost	<b>3.5%</b>
Annual Contribution Increases	<b>3.0%</b>

---

## Comment

- Current funding plan maintains adequate funding.
- Recommended funding plan maintains adequate funding with larger year end balances.
- This analysis should be updated annually with a site visit every 2 years to monitor component condition and update component replacement cost, interest and inflation rates.
- This revision, V4 changes Furniture, Fixtures & Equipment category to Misc. Components to prevent printing error.

# Report Navigation

- **Executive Summary** provides information about projected year end reserve balance, current annual contribution, interest, and inflation rates:
  - Level of Service is the type of reserve study
  - Funding Method is either Component Funding or Pooled Cash
  - Component Funding Contribution is a year one only amount
  - Current Funding Plan currently used by the Association
  - Recommended Funding Plan maintains adequate funding
- **Funding Model Projections** include both your current plan and our recommended plan. The information included in each column is described below:
  - Year begins with your study year generally for a 30-year term
  - Current cost is the current replacement of all components
  - Annual contribution is the amount placed in reserves each year
  - Annual interest earned on your funds
  - Annual expenditures are the projected component replacement cost by year
  - Projected ending balance is the year end reserve fund balance
  - Fully funded reserves are the fully funded balance for that year. Fully Funded formula is Fully Funded Balance= Component cost x Age/Useful Life
  - Percent Funded is a measure of fund strength
- **Current Funding Projection** is your current funding plan and how it performs
- **Recommended Funding Model** Projection is the plan we recommend
- **Cash Flow** is a 30-year statement that provides both income and expense information to quickly find when expenditures occur and the resulting financial status of your reserves
- **Annual Expenditure Detail** provides a year to year list of your projected expenditures This is a good section to review each year when preparing your budgets
- **Condition Assessment (if included)** is a brief description of major component condition
- **Component Inventory** contains a list of your components, remaining useful life and quantities we determined from our site visit and other means of measurement
- **Component Detail Index** allows quick access to the detail we have included for each component separated into categories
- **Component Detail** provides a listing of each component, quantities or allowances and photographs of major ones
- **Methodology - Terms of Service – Company Profile** are our Disclosure sections with information about our assumptions, methods of work and our credentials

## METHODOLOGY

Reserve Analysis is a process that identifies capital expenses the District can expect and creates a plan to fund them. This is accomplished by a site visit to visually evaluate components to measure quantities and determine their remaining life. Component Selection Process is based on the Community Associations Institute (CAI) standards for reserve studies and selection of components.

Component must be a commonly owned, have a limited and predictable life, replacement cost must be above a minimum threshold cost. Useful life and replacement cost are obtained from site inspection by experienced inspectors and our database of information, historical information, local Vendors and comparison of similar component cost found at other properties.

The funding plan we develop includes; adequate cash balances, even contributions so all owners pay their fair share over time and moderate contributions with acceptable increases. Percent Funded is defined by industry standards as 70-100% strong, 30-70% fair or adequate and below 30% weak or inadequate. Baseline Funding maintains funds above zero resulting is a high risk of special assessments or deferred maintenance and should be avoided. Threshold Funding maintains reserves above a “Threshold” level providing adequate funding with moderate risk; using this method requires regular analysis updates.

## CREDENTIALS

*Community Advisors, LLC* provides capital reserve planning, property inspection, and construction oversight for a broad base of clients including High-rise Condominiums, Homeowner Associations, Churches, Private Schools, Time Shares, Active Adult, Municipal Utility Plants, Marinas, Historic Buildings & Museums and commercial investment properties.

*Personal Service* attention to detail, quick response and valued client relationships.

*Range of Experience* includes a broad selection of building types, ages and uses from protected historic structures to new communities ready for developer turnover. As commercial general contractors we have experience building many of the types of structure we now provide reserve analysis for, so we understand potential problem areas. As commercial inspectors we have experienced a variety of structural and cosmetic conditions offering solutions for repair. Areas of expertise include MEP systems, energy management, life safety systems, building envelope and roof components, marine structures, street and other site improvements.

*Detailed Site Evaluation is Conducted* to make sure we know your property and include all your assets in our analysis. With our years of experience with community development and commercial construction projects we understand both horizontal and vertical construction and utilize realistic replacement cost and useful life projections in our analysis. *Financial Plan Meets CAI & APRA Standards* with information obtained during the site visit we build a custom-made financial plan to ensure adequate funding for future component replacement which equates to maintaining community value.

*Reserve Analyst Credentials:* Mr. Charles Sheppard is the owner of Community Advisors responsible for field inspection oversight and day to day operations. Mr. Sheppard hold a BS degree from VA Tech and has conducted building evaluations for over 30 years. He is a licensed Florida General Contractor, Home Inspector and earned the professional designations of Certified Construction Inspector (CCI), Professional Reserve Analyst (PRA) and Reserve Specialist (RS).

## TERMS OF SERVICE

We have completed an analysis of your capital components that serves as a budgeting tool. This reserve study reflects the information provided by this client and is not for the purposes of performing an audit or estimating construction projects. Our site visit includes visual observation of components that are accessible and safe for our inspectors to evaluate. Roof evaluation is limited to ground observation for sloped roofs and roof top inspection for flat roofs if safe and stable access is available that meets our safety standards.

We are not responsible for any hidden defects or determining the condition of hidden or underground components or systems. Observing environmental conditions, hazardous materials or determine compliance with building codes or other regulations is not included in our scope of work. Our site visit is not a safety inspection and we are not responsible for any hazards that exist. Destructive testing is not conducted. It has been assumed, unless otherwise noted in this report, that all assets have been designed and constructed properly and that each estimated useful life will approximate that of the norm per industry standards and/or manufacturer's specifications.

Projections of component remaining useful life assumes this client will perform necessary preventative maintenance and repair per industry standards. This reserve analysis study and the parameters under which it has been completed are based upon information provided to us in part by the Client and its contractors, assorted vendors, specialist and independent contractors. Reserve fund balances and contribution amounts for use in our analysis is furnished by the client and deemed accurate. Useful life projections are determined by historical records, component condition and our opinion based on evaluating similar components on other projects. These life projections are changed by weather conditions, use, maintenance procedures and other factors out of our control therefore regular updates to this analysis are needed to maintain funding accuracy. Replacement cost is determined by our experience with similar projects, local vendor pricing and client historical records and should not be considered suitable for budgeting repair or replacement projects. Local contractor proposals must be obtained for this work. No liability is assumed as the result of changing market prices or inaccurate estimates or projections of remaining useful life of components.

Component replacement cost and interest rates constantly change. In order to maintain accuracy of your funding plan updates to this analysis should be conducted annually with a site visit every 2-3 years unless conditions warrant annual visits. Community Advisors, LLC shall not be required to participate in any legal action taken by or against our clients for any reason and shall also not be required to give testimony in depositions or in court. In all cases the liability of Community Advisors, LLC and its Principals, Employees, contractors and Vendors shall be limited to the consulting fee agreed upon for the production of this report. Client financial information is considered confidential and is not disclosed to third parties without your approval. We do use your name for our list of valued clients and when submitting proposals for new projects that request references or recent projects. That request may include size of property, number of units or major components. We also use photos from time to time of components as an example for educational and marketing efforts. Community Advisors and the analyst who prepared this study do not have any relationship that can be considered a conflict of interest. From time to time our Clients ask that we manage repair or replacement of components due to our experience in construction management. We do so with the understanding that full disclosure for both parties is completed.

## DEFINITIONS

**Adjustment to Useful Life:** Typical useful life projections are used for each component. The adjustment is used to modify that life projection for earlier or later replacement. It only applies to the current replacement cycle.

**Cash Flow Method:** A method of determining reserve contributions that are “pooled” to fund replacement cost as needed without restricting funds to any one component.

**Component Method:** A funding method that fully funds each reserve component then sums those for the annual contribution.

**Current Funding Plan:** The funding plan currently used at the time of this analysis with updated component inventory and financial assumptions. This allows you to see how the current contribution level funds future component replacement.

**Effective Age:** Difference of useful and remaining useful life.

**Fully Funded Balance:** Represents the cost of used component life represented by the formula.

$$\text{FFB} = (\text{Current Cost} \times \text{Effective Age}) / \text{Useful Life}$$

**Interest Contribution:** The interest that should be earned on invested reserves.

**Percent Funded:** Ratio of reserve balance to fully funded balance.

**Remaining Life:** Number of years a component is projected to continue to function.

**Threshold Funding:** This plan maintains fund balance above a predetermined threshold dollar or percent funded amount.

**Useful Life:** The estimated useful life of an asset based upon industry standards, manufacturer specification, visual inspection, location, usage, association standards and prior history.
